

COWBOY FAST DRAW ASSOCIATION

Qualified Range Master

“Renewal Process”

(Updated: February 2022)

Thank You for making a commitment to our sport by attaining the rank of a CFDA Qualified Range Master!

Since its inception in 2006, our Range Officer Training Program has raised the level of the Sport of Cowboy Fast Draw significantly. Safety, of course, has always been our primary concern. But also, having trained Range Officers and Range Masters is paramount in keeping our matches running consistently and efficiently.

Renewal Process

In 2020, The CFDA Regulator Posse was concerned that many approved Range Masters, have allowed their rank as a CFDA Qualified Range Master to expire, which is accomplished through “Continuing Education”.

For this reason, this process has been streamlined in order to assist Qualified Range Masters document their continued education, in order to qualify for renewal much easier, through documented proof in the form of a “Log Page”, that they can submit showing their proficiency at both the club and championship level matches. It is the hope of the Regulator Posse that this New Renewal Process will provide the documentation and inspiration to guide our Range Masters to continue their education.

If your Qualified RM Status is allowed to expire, your information will remain on our Published RM List on the CFDA Website for only one-year after your Expiration Date. You may use this Renewal Process within that time. After that, you will be required to take a Refresher RO Course and must submit a New Range Master Application which includes running a range under the supervision of and be signed off by an Approved Examiner.

As a Qualified Range Master you are qualified to instruct Range Officer Classes at your local club. This certainly helps your club members learn Range Operations so that your local matches run safe and smoothly. Plus, when your club members travel to CFDA Titled Championships. They will feel more confident in their expectation of Range Operations and will enjoy their “big match” experience much better, and will probably shoot better too.

RO Instruction for your club not only benefits your club, but it also reinforces your knowledge as well. Therefore, conducting RO Training also counts as Range Master continuing education, as do other services you perform at various events that can be found on the New Renewal Form.

Thank You!

CFDA Regulator Posse

Please review your status at www.CowboyFastDraw.com, so that you have an opportunity to renew, in your normal course of contests that you attend. Please, don't wait until the last minute.
